

PROFILE

Recent graduate, self-learner, and IT enthusiast with a strong desire to collaborate in a dynamic team. I'm dedicated to continuous self-improvement in the ever-evolving tech industry. Seeking opportunities to apply my skills and passion to contribute effectively, while also growing as a professional within an organization that values innovation and teamwork.

SKILLS

Technical Skills

- React Js
- Node Js
- Express Js
- Mongo DB
- Redux
- JWT
- Firebase
- Bootstrap
- Tailwind CSS
- Postman
- Figma
- SQL
- Javascript
- Git
- AWS
- Nginx
- HTML/CSS
- REST Api

Non-Technical Skills

- Self Learner
- Team Worker
- Problem Solving
- Work Ethic
- Passionate
- Communication
- Time Management
- Debugging
- Adaptability
- Flexibility

EDUCATION

Calicut University

Bachelor's Degree in Computer Science
2019 – 2022

Govt.HSS Cherpu

Computer Science
2017 – 2019

PROJECTS

• DC Wears - E Commerce Website

GitHub : [Link](#)

Live Link: [Link](#)

Designed and executed a demo e-commerce platform focused on superhero clothing. Demonstrated web development and design expertise in crafting a simulated shopping experience, highlighting my technical and creative abilities.

Technologies Used

- Mongo DB
- Express Js
- Node Js
- Bootstrap
- Handlebars
- Nodemailer
- Multer
- Datatables
- Chart Js
- Razorpay
- AWS
- Nginx

• MEDICARE - Appointment Booking Website (On Progress)

GitHub : [Link](#)

Created a user-friendly doctor appointment booking website using React, streamlining healthcare access. Implemented intuitive UI/UX for patients and efficient management tools for medical professionals.

Technologies Used

- Mongo DB
- Express Js
- Node Js
- React
- Nodemailer
- JWT
- Multer
- Razorpay
- AWS
- Nginx

MINI PROJECTS

• NETFLIX Clone : React

GitHub : [Link](#)

- Developed a Netflix clone using React
- Utilized the TMDB API for movie data
- Integrated React-Youtube for trailer playback
- Implemented a user-friendly interface
- Showcased skills in web development and API integration.

• TODO App : React

GitHub : [Link](#)

- Developed a Todo app using React
- Implemented features to add, edit, and delete tasks
- Enabled task completion status tracking
- Utilized React's component-based architecture
- Showcased proficiency in front-end web development.

• OLX Clone : React | Firebase

GitHub : [Link](#)

- Developed an OLX clone using React
- Implemented a user-friendly interface for adding items to sell
- Created a feature for viewing detailed item information
- Utilized React components for seamless user experience
- Showcased proficiency in frontend web development.

• MERN Auth App : React | Redux

GitHub : [Link](#)

- Developed a React-based MFA (Multi-Factor Authentication) app
- Implemented user sign-up and login with JWT authentication
- Enabled profile updates for users
- Ensured secure authentication for home, signup, and login pages
- Utilized Redux for state management.
